To Whom It May Concern:

I am writing this letter on behalf of the Southern Illinois University Carbondale (SIUC) chapter of Tau Kappa Epsilon (TKE) and their application for the Outstanding RSO Award. I have been affiliated as and honorary member for approximately one year and have known several TKE chapter members for several years. This is an outstanding group of young men. They are active in a number of areas on campus and do their best to be good ambassadors for SIUC in the community. They are a fine example of why RSO's exist.

The area I am most familiar with them is their work this year on the American Cancer Society's Relay For Life. They have done a fantastic job of raising a great deal of money in a short amount of time and this underscores one of their true strengths: the ability to spring into action when need arises and get things done. They are planning to be very active at the Relay event itself, helping to raise additional dollars, increase awareness of cancer related issues, and helping to put a smile on the face of many cancer survivors.

Thank you for considering the TKE chapter for this award. I believe that they would be an outstanding choice. Please feel free to contact me if you have any further questions about their qualifications.

Sincerely,

Philip M. Anton, Ph.D.
